

The Truth About Merkley

Why Doesn't Jeff Merkley Want You to Have Control Over Your Property?

There's a reason Rep. Jeff Merkley has repeatedly received high marks from one of Oregon's most extreme environmental groups:

The League of Conservation Voters.

In the last three election cycles alone, Merkley has been awarded the following scores:
2001, 88%; 2003, 100%; 2005, 94%.

These high scores don't mean Merkley is working for you—they mean he is working for them.

- Merkley voted no on a bill allowing long-time property owners to transfer their property to their children and grandchildren.
- Merkley voted against a bill allowing property owners to build a family home on their homestead.
- At the insistence of environmental extremists, Merkley opposed a bill to allow existing golf courses to build hot dog stands for their golfers! (HB 3247A, '03)
